Briefly

The Future of Learning Book Club

Exploring AI through
Briefly book summaries

This facilitator's guide is designed to help you lead book club discussions. It includes three book summaries exploring AI, communication, and the future of work. Each section provides discussion questions and guidance for creating meaningful conversations.

How to facilitate a book club:

- Choose a book that is meaningful for your organization and the learners who will participate.
- Ask learners to complete the course before the session.
- Schedule a time and place to meet, either virtually or in person.
- Use the discussion questions below to guide your conversation. It may be helpful to provide questions ahead of time so learners can make notes!

Table of contents

1. Co-Intelligence: Living and Working with AI
2. Five Stars: The Communication Secrets to Get From Good to Great
3. Human + Machine: Reimagining Work in the Age of AI

Co-Intelligence: Living and Working with AI

By: Ethan Mollick

Discussion questions

Get started

1. What are three things you learned from this book that you'd like to share?
2. What was your favorite quote or "aha" moment from this book?
3. How might this book help you further individual, team, or organizational goals?

Go deeper

1. Where do you see the biggest opportunities for human + AI partnership in your role?
2. What challenges or risks do you think come with increased AI use?
3. How can leaders encourage trust and confidence in using AI tools?
4. Reflect on a decision you've made recently. How might AI have supported you?
5. Describe a task in your role that AI could support. What part should remain human-led?

Human + Machine: Reimagining Work in the Age of AI

By: Paul R. Daugherty and H. James Wilson

Discussion questions

Get started

1. What are three things you learned from this book that you'd like to share?
2. What was your favorite quote or "aha" moment from this book?
3. How might this book help you further individual, team, or organizational goals?

Go deeper

1. What does the missing middle mean for the skills we'll need in the future?
2. How can AI free up time for more creative or strategic work?
3. What ethical considerations should organizations keep in mind as they adopt AI?
4. How can leaders ensure AI supports, rather than replaces, human potential?
5. Describe a skill you've developed that you think will become even more valuable in an AI-driven workplace.
6. Identify a process in your organization that could be reimagined with AI. What role would humans still play?

Five Stars: The Communication Secrets to Get From Good to Great

By: Carmine Gallo

Discussion questions

Get started

1. What are three things you learned from this book that you'd like to share?
2. What was your favorite quote or "aha" moment from this book?
3. How might this book help you further individual, team, or organizational goals?

Go deeper

1. Think of a recent time when communication impacted success or failure. What lessons apply here?
2. How can communication help bridge the gap between technical experts and decision-makers?
3. What role does storytelling play in inspiring change?
4. How can you practice and improve your own communication daily?
5. Identify one area where communication could make AI adoption in your organization easier or harder. What strategies would help?
6. Identify a situation where AI might provide the information, but human communication skills are needed to inspire action. What does that look like in your role?
